---

**Dear Hiring Manager,**

I am writing to express my interest in a suitable internship or entry-level opportunity within your organization. I am currently pursuing a Bachelor of Technology in Computer Science and Engineering with a specialization in Data Science from DIT University, Dehradun, where I have maintained a CGPA of **9.02/10**. With strong analytical abilities, hands-on project experience, and a consistent academic record, I am eager to bring my skills to a professional environment where I can contribute while learning and growing.

During my academic journey, I have developed a solid foundation in **Java, OOPS, DBMS, MySQL, HTML, CSS, and JavaScript**. I applied these skills in several real-world projects. My **Currency Converter** project involved building a responsive web-based converter using JavaScript and API integration for real-time exchange rates. Similarly, my **QuizApp** project allowed me to work with dynamic APIs, UI building, input validation, and user interaction logic. In addition, I created a machine learning model titled **Burnt Calories Prediction**, where I utilized Python, Regression techniques, and the XGBoost algorithm to develop an accurate model and perform evaluation using industry-standard libraries.

Beyond technical work, I have demonstrated strong communication, leadership, and organizational skills through multiple responsibilities. As the **Editorial Head of Pratibimb**, my college's official magazine, I led the content team, coordinated with contributors, and ensured timely and high-quality publications. I have also contributed to various content and public relations teams during college and national events, further strengthening my teamwork, communication, and event-management abilities.

With a combination of technical proficiency, leadership experience, and a passion for problem-solving, I am confident in my ability to contribute effectively to your organization. I am enthusiastic about the opportunity to apply my skills to meaningful projects and gain valuable industry experience.

Thank you for considering my application. I would welcome the opportunity to discuss how my background and abilities align with your requirements.

**Sincerely,**

**Shrishti Mishra**
